ABOUT COMPANY

A **Costa Sport Infrastructure** is an ISO 9001:2015 Certified Sports Infrastructure Company founded by Ashwini Kedia a sports enthusiast by character and a businessman by profession; to meaningfully contribute by building quality sports infrastructures.

We expertise in Designing, Laying and Installation Of Sports Surfaces both for, Professional and Amateur purposes.

To date, we have successfully completed 935 projects as of 31st March, 2025.

Costa Sport is a part of Costaa Group which has its manufacturing facilities at Kutch & Kolkata. For more details, visit www.costaafoods.com.

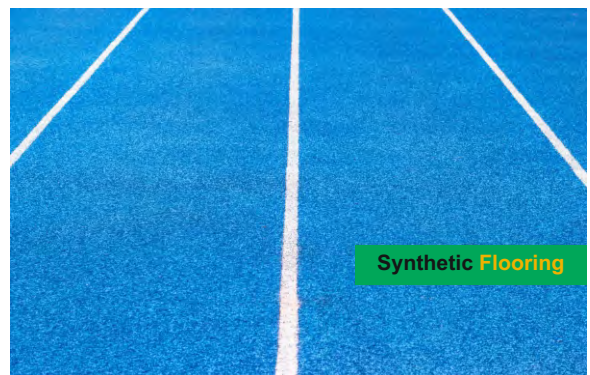

OUR PRODUCTS

To Drench in Sweat on

A leading Sports Infrastructure Company committed to elevating Indoor and Outdoor Sports Arenas with high-quality, reliable products, driving the advancement of sports infrastructure across India

1 Acrylic / Synthetic Flooring (ITF Certified)

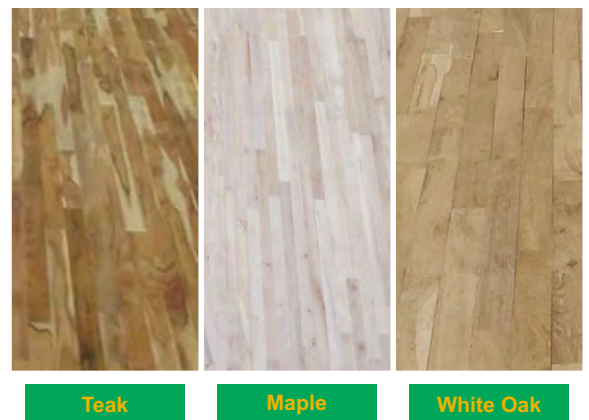

'COSTA' Synthetic Flooring is all weather resistant, antifungal and U/V resistant with a life span of 5 to 10 years. In addition, these floorings are low maintenance system. Our laying system ensures that there is minimal impact on player's knees and shins

- ✦ **Sports:** Lawn Tennis, Volleyball, Basketball, Badminton, Pickleball, Padel
- ✦ Outdoor Activity Areas

2 Wooden Flooring (FSC Certified)

'COSTA' Air-Cushioned Wooden Flooring is manufactured with FSC Certified Maple, White Oak or Teakwood. The COSTA Wooden surface is suitable for all ages of players and can be used as multi-functional sports floor. The shock-absorbing properties of wood flooring can help reduce injuries with minimal impact on player's knees and shins

- ✦ **Sports:** Squash, Badminton, Basketball, Auditorium, Dance Floors
- ✦ Indoor Activity Areas

3 Artificial Grass / Turf (FIFA Certified)

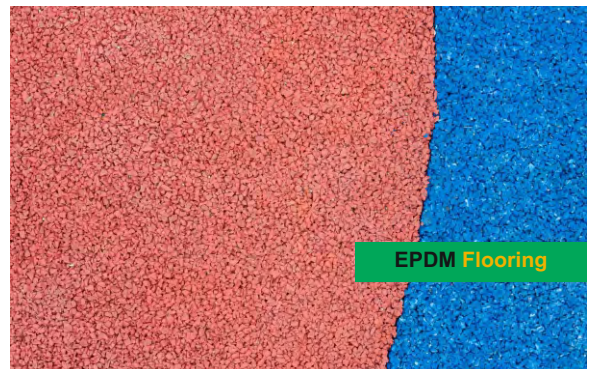

'COSTA' Artificial turf is FIFA Certified and we recommend different varieties precisely as per Project requirements. Our turf blends seamlessly with the environment, providing a durable and comfortable surface for optimal gameplay.

- ✦ **Sports:** Football, Futsal, Cricket, Golf, Tennis
- ✦ Outdoor Activity Areas

4 Ethylene Propylene Diene Monomer / (EPDM) Rubber Flooring (IRMRA) Certified

'COSTA' EPDM Rubber Floorings comprises a dual-layered Rubber flooring solution. The base layer, composed of recycled tire crumb rubber and a 15% BASF polyurethane binder Imported, top 6 mm of EPDM rubber and balance thickness of buffing rubber base which delivers a durable, vibrant and protective surface.

- ✦ **Sports:** Children's Play Area, Running Tracks, Weightlifting, Fitness Areas
- ✦ Outdoor Activity Areas

5 Polyvinyl Chloride (PVC) / Vinyl Flooring

'COSTA' Vinyl flooring has become one of the most popular indoor flooring surfaces simply because of its cost, utility & comfort. It is a state of art indoor flooring being installed at all primary sport locations. It is a resilient type of flooring and easy to maintain.

- ✦ Indoor Activity Areas

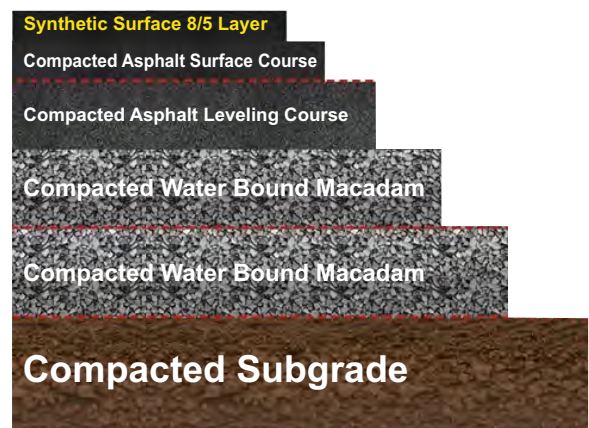

SUB-BASE

Shock Absorbing

A sub-base is crucial for sports flooring as it ensures an even distribution of weight, prevents surface warping, and provides essential drainage to avoid frost and salt heave. By maintaining a flat and stable playing surface, it enhances safety by reducing the risk of injuries. Additionally, the sub-base absorbs shock, lessening the impact on players' joints and ensuring a more comfortable and durable playing environment.

Asphalt Base

Hot Mix Asphalt (HMA) surfaces are a very important part of today's recreational surfacing industry. Hot Mix Asphalt provides an affordable and durable all-weather pavement that athletic surfaces are applied to throughout the world. The acrylic coatings used for tennis, basketball, volleyball and other sports were originally developed for application on asphalt.

Concrete Base

An ideal base for concrete is usually made of crushed stone or gravel, as it offers strong load-bearing support, facilitates proper drainage, and compacts effectively. This ensures minimal settling, providing a stable foundation for the concrete slab. For the best results, a mix of coarse and fine aggregates is often recommended.

ACCESSORIES

To Complete the Sport

Hard Plaster Wall for Squash (WSF Standards)

'Costa' Hard plaster system provides a unique combination of great strength and whiteness. Costa plaster walls are in accordance with all specifications and standards defined international bodies / agencies / authorities / federations.

Glass Back Wall for Squash (WSF Standards)

The glass is a 12 mm toughened safety glass. The glass wall consists of two panels and one glass door with 3mm white ceramic silk-screened lines bonded into the glass at a 25 mm intervals and 620 mm high. The court entrance width is 914 mm (barrier-free access). This tempered glass is made specially to withstand the rigours of squash and racquetball.

Net & Net Post

Net and net posts are essential components for various sports courts, including tennis, volleyball, badminton and pickleball. Nets are typically made of durable nylon or polyethylene and are supported by adjustable steel or aluminum posts. COSTA's net & net posts are robust, weather-resistant, and capable of providing proper tension and height adjustment to meet official regulations.

Chain Link Fencing

Chain link fencing is a type of fence made from galvanized steel wire that is woven into a diamond pattern. It is one of the most common and economical types of fencing used for both residential and commercial properties. Chain link fences are durable, low-maintenance and provide good security while allowing visibility through the fence.

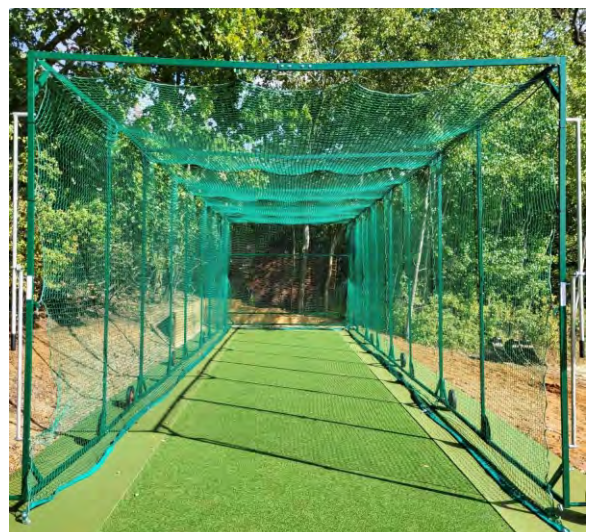

Lighting

With the growing trend of playing sports at night, proper sports court lighting is essential for ensuring visibility and safety during outdoor or indoor activities. Whether it's for tennis, basketball, volleyball or other sports, proper lighting allows for better performance and an enjoyable experience. We at costa sports provide a comprehensive solution for the sports facility from grouting of poles to fixation of lights & wiring.

Cricket Practice Net

A cricket practice net is typically made from durable materials like nylon or polypropylene, which are strong, lightweight, and weather-resistant, allowing them to withstand repeated impacts from cricket balls. The net is supported by a sturdy frame, made of steel or aluminum, ensuring stability during use. These nets provide an effective and controlled environment for players to refine their skills.

PLAYING AREAS

Court Type	Court Area	Dimension in Feet			Net Height
		Length	Width	Total Sq. Ft.	
Badminton	Standard Area	50.00	25.00	1250.00	5' 1"
	Playing Area	44.00	20.00	880.00

WARMING UP KIDS (WUK)

Warming Up Kids is more than just a sports academy; it's a community where young athletes flourish. Catering to children aged three to thirteen. Each activity is designed to not only develop physical skills but also to instill discipline, teamwork, and confidence in the children.

With licensed coaches and a focus on holistic development, Warming Up Kids Kolkata ensures that every child receives personalised attention and support. The academy's commitment to providing a safe, fun, and inclusive environment makes it a beloved institution for both children and parents alike.

Through their innovative approach, Warming Up Kids is helping to shape the future of sports and physical education for children, making a positive impact on their lives both on and off the field.

We pride ourselves on our team of licensed and qualified trainers, supported by Technical Director, Academy Manager, and Doctor to ensure the best care and development for our 200+ kids, maintaining a 1:15 trainer-to-kid ratio across all sessions.

MOVE. PLAY. GROW.

This is Warming Up Kids

An academy to Sweat, Learn, Play, Repeat.

MOVE. PLAY. GROW.

a COSTA Sports System Initiative

What is WUK?

"Warming Up Kids" is a unique program introducing children aged 3 to 13 to the joys of physical activity, inspiring them to pursue sports, dance, or martial arts. It provides a holistic approach for parents who want their kids to grow up healthy, energetic, and disciplined, with these habits lasting into adulthood.
